01 Executive Summary

Playmatez is a live prediction market platform. Players predict crypto, stocks, sports and world events at **picks.playmatez.cc** and get paid when they are right. It is not a roadmap: the product is open in any browser today, has settled more than 820,000 markets since January 2026, and runs automatically around the clock.

Three fast game formats sit at the centre: **Flash** (five minute price rounds on 13 crypto and stock assets), **Coin Race** (pick the coin that moves most in a race of 45 seconds or 5 minutes) and **Swipe Sprint** (a free 60 second swipe game). Alongside them, The Arena runs sports, politics, finance, esports, streaming and weather markets, many priced from global prediction market reference prices.

$PLYM is the platform token on BNB Smart Chain. The presale is planned for January 2027 at $0.004, ahead of a planned PancakeSwap listing at $0.005. Early access is open now, and the first 4,000 valid entries receive 500 free $PLYM.

02 The Problem

- **Prediction markets are built for traders.** Polymarket and Kalshi serve people who already trade. Casual players and gaming operators are left out.
- **Players wait too long.** Most markets take days or weeks to settle. Players want an answer in seconds, not a month.
- **Operators lack fresh products.** Slots and table games are the same everywhere. Casinos and sportsbooks need a new product that brings players back daily.
- **Most presales have nothing behind them.** Many token launches have no working product. Playmatez launched the product first.

03 The Games

Every game is live now and settles automatically, with no operator input needed.

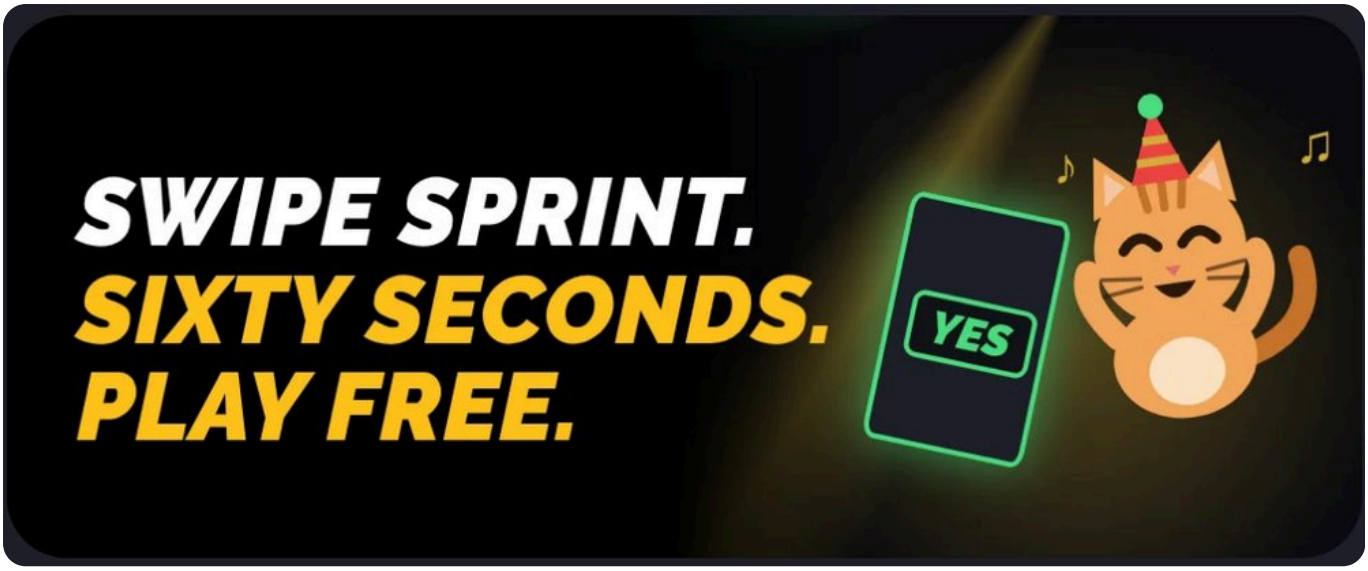

Flash: five minute price rounds

- 13 assets: BTC, ETH, SOL, XRP, BNB, DOGE, plus Apple, Tesla, Nvidia, Coinbase, Strategy, Palantir and Meta in US market hours.
- "Above or below the target in 5 minutes?" with live moving odds.
- Picks close two minutes before the end, so nobody can see the result first. $1 to $100 per pick.
- More than 4,000 rounds a day.

Coin Race: which coin moves most?

- BTC, ETH, BNB and DOGE line up on a starting grid. Players back the coin they think will rise the most.
- Races of 45 seconds or 5 minutes, around the clock; 5 minute stock races in US market hours.
- Pool based: backers of the winning coin share the pool. Stakes are refunded if a race cannot run fairly.
- Free practice mode with play money and real live prices.

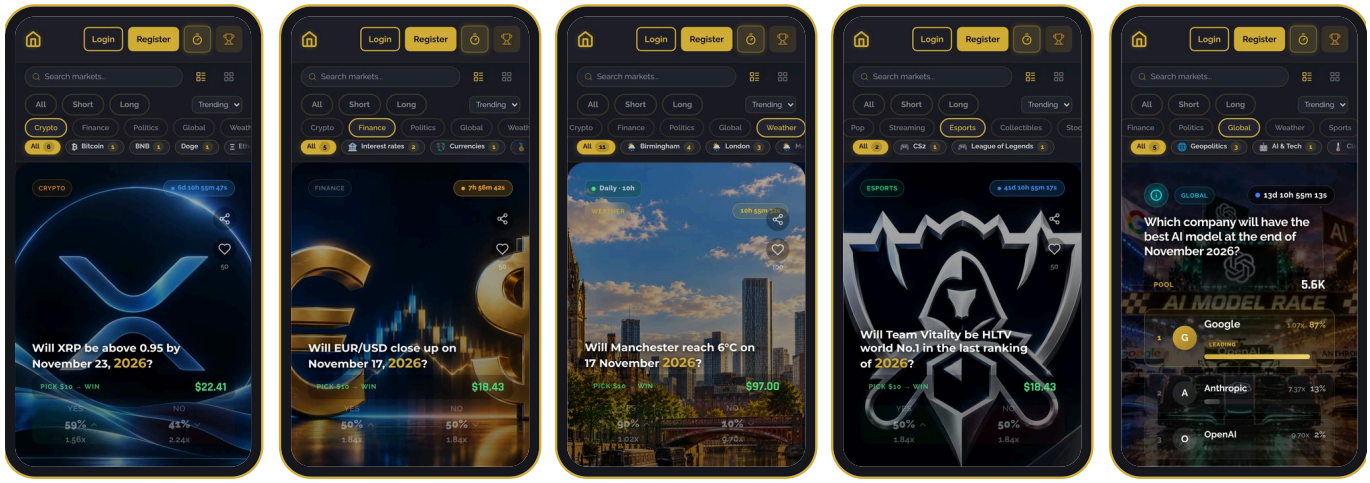

Swipe Sprint: free 60 second game

- "Higher in 30 seconds?" Swipe right for YES, left for NO, on six major coins. As many cards as you can in 60 seconds.
- Points and combos build during play, results are judged against live prices, and mystery box prizes reward top players.
- Free to play at picks.playmatez.cc/sprint, and the day's top score is posted to the Playmatez Telegram channel.

04 The Arena: Markets and Features

Beyond the fast games, The Arena runs markets on almost any topic players care about, each with live odds and a clear settlement source.

CRYPTO FOREX WEATHER ESPORTS TECH AND AI

- **Global reference pricing.** Selected sports, politics and event markets follow live prices from Polymarket, the largest global prediction market, updated every 15 minutes, and settle automatically when it resolves.
- **Multi outcome markets.** Pick the winner from several answers, for example Premier League matches, Formula 1 races and elections.
- **Cash out.** Exit a pick before the market settles.
- **Streaming, esports and weather markets.** Viewer count markets on Twitch and Kick, esports events, and daily weather settled on verified data.
- **Payments.** Crypto deposits through a crypto payment gateway (USDT, BNB, BTC, ETH), $10 minimum.

- **Prize challenges and embed widgets.** Free to enter cash prize challenges, and live markets partners can place on their own sites with referral tracking.
- **Safety.** 18+ verification, a public Fair Play page, risk monitoring that pauses unusual markets, and rounds that are suspended and refunded rather than settled on bad price data.

05 Community and Growth

06 Market Opportunity and Competition

Online gambling is forecast to reach $153 billion by 2030 (11.7% CAGR, Grand View Research), and Polymarket alone passed $1 billion in monthly volume in late 2024. No product dominates white label prediction markets for casino operators, and the crypto native gaming audience runs to 5 to 10 million active users worldwide.

Token utility (planned)

- **Play.** Use $PLYM on Arena markets and games, with premium Flash and Coin Race access for holders.
- **Buyback and burn.** A share of platform fees funds $PLYM buybacks on PancakeSwap, with purchased tokens burned.
- **Staking.** Linked to platform benefits. Full terms will be published before launch; no staking returns are offered or promised here.
- **Governance.** Votes on new markets, games and fee changes.

09 Technology and Security

COMPONENT	TECHNOLOGY
Frontend	React and TypeScript on the Netlify CDN; swipe cards, desktop grid, live prices
Database and auth	Supabase (PostgreSQL) with row level security, daily backups and 18+ verified accounts
Automation	Scheduled server jobs create, price and settle every round around the clock
Images	Cloudflare R2
Smart contract	$PLYM on BNB Smart Chain (BEP20)

- Every admin action is checked on the server, and no privileged key is exposed in the browser.
- Settlement and payout routines can only be run by the platform itself.
- Regular security reviews, with every change recorded so fixes cannot be undone.

10 Roadmap

PHASE	TIMELINE	DELIVERABLES
1. Foundation	Complete	The Arena live; Flash on 13 assets; Coin Race; Swipe Sprint; global reference pricing; multi outcome markets; cash out; weather, streaming and esports markets; Telegram bot; $PLYM deployed; Token Revival; embed widgets

11 Team

NAME	ROLE	BACKGROUND
Emmanuel	Founder and CEO	20 years in sales, closing deals across land, property and commodities. Leads product, business development and capital.
Manuel	Head of Investor Relations	Investment conversations, strategic partner outreach and institutional relationships.

12 Compliance

AREA	STATUS
Company	Playmatez Ltd, registered in England and Wales, Company No. 812243
Token sale restrictions	UK residents, US persons and residents of restricted jurisdictions may not take part in the $PLYM token sale
Responsible play	18+ mandatory, self exclusion tools, GamCare and BeGambleAware
KYC and AML	Identity verification and AML checks on transactions
Data protection	Handled in line with UK GDPR
Terms	Full terms at picks.playmatez.cc/terms; public Fair Play page

13 Risk Factors

RISK	MITIGATION
Regulation of gaming and crypto may change	UK legal counsel engaged; token sale restricted by jurisdiction; B2B model places licence obligations on operators
$PLYM price may be volatile	The platform earns from fees and does not depend on the token price. Listing price is planned, not guaranteed
Price feed failure	Rounds are suspended and refunded rather than settled on bad data
Reliance on reference markets	Linked markets can be paused, repriced or settled by admins
Competition	Fast games, free to play formats and operator tools take deep work to copy
Small team	Automated operations and contracted technical support
